

ARE YOU THE ONE? WE ARE LOOKING FOR

Medical Science Liaison BeLux

Terhulpsesteenweg 6, 1560 Hoeilaart, Belgium

For Us, It's A Mission

At Mylan, we mean it when we say we work every day to provide access to high quality medicines to the world's 7 billion people. If you are unconventional, relentless and passionate. If you believe in doing what's right, not what's easy. If you are a doer and have a passion for serving others, we want to talk to you.

Make a Difference

At Mylan, each person has the ability to make a difference. From the providers who sell and market our products, to the producers who develop and manufacture them and finally to our business partners who support the providers and producers, we all have a mission critical role. Here's how this role will help:

Make Our Values Your Values:

Mylan hires only the best. People who thrive in a culture of innovation and empowerment. People who are active learners and have a positive attitude. People who are leaders and know that by working together we can run faster, reach higher and achieve more. By doing so, we will continue to set new standards in healthcare. Here are the minimum qualifications and essential functions for this temporary project :

POSITION PURPOSE

To foster collaborative relationships with the key opinion leaders (KOL's) and to facilitate the exchange of unbiased scientific information between the medical community and Mylan's stakeholders. The MSL will establish relationships with clinical and research leaders including, but not limited to academicians, clinicians, directors of pharmacy and other health care professionals.

ESSENTIAL DUTIES AND RESPONSABILITIES

Drive the medical-scientific contribution to the country Biosimilars strategy and to other therapeutic areas where MSL activities are needed on an ad hoc base. Below activities are listed for main biosimilar focus.

- Engage in meaningful proactive and reactive peer-to-peer discussions with healthcare professionals regarding the respective disease state via scientific exchange.
- Develop strong relationships with emerging healthcare professionals, Key Opinion Leaders and key academic institutions and researchers by developing medical scientific presentations, 1to1' with leading experts.
- Interact with Healthcare Professionals to develop educational materials for educational purposes at academic centers or community-based programs.

Customer relationship management and Field Support

- Support field operations through presentations of scientific exchange to targeted audiences.
- Actively participate in Speaker Training, Advisory Boards, Round Table discussions, National and Regional Medical Conferences and internal committee meetings, as needed.
- Attend international congresses and if needed provide summaries of presentations, symposiums for internal and external use.
- Work collaborative with the Center of Excellence (CoE) Medical Affairs on biosimilars and with the CoE on other therapeutic area's and align frequently to ensure the execution of the regional medical strategy in Belgium/Luxembourg.

Medical Brand Opportunities & Development

- Provide information on new research directions, ideas, practices in patient care and identify unmet medical needs.
- Act as a liaison between National and Regional Thought Leaders and Mylan to extend the Medical Affairs brand strategy.
- Maintain a current knowledge of published literature in the respective therapeutic are of specialization as well as attend meetings and congresses sponsored by the influential leaders of the respective therapeutic area for educational purposes.

Reporting & Compliance

- Review, evaluate, and channel information to the appropriate Mylan personnel and provide timely responses to requests regarding product or disease information assuring that all activities and reporting methodologies are compliant with Company and Regional policies.
- Be an active member of the regional Biosimilars Medical team and of the regional Medical Teams for other therapeutic areas.
- Responsible for the transmission of quality complaints and adverse events to the responsible person and local representative for Pharmacovigilance within 24 hours. Commits to complete all mandatory trainings to meet compliancy needs in terms of GDP/GMP regulations.

QUALIFICATIONS / KNOWLEDGE

- Academic by education (Pharmaceutical/ Life sciences) solid medical/technical background
- Previous experience in medical function in pharma industry. Knowledge of the Medical Science Liaison roles and responsibilities are a plus. Understand compliance within the Standards for Interactions with Healthcare Providers, promotional laws and regulations, and the Code of Business Conduct and Ethics is a basic requirement;
- Must have advanced scientific education, training, and/or experience in one of the following therapeutic areas, allergy/immunology, respiratory/ pulmonology, CNS, anesthesia, metabolic disorders, or oncology;
- Ability to understand complex mathematical problems including biostatistics.
- Scientific expertise of therapeutic area, patient-treatment trends, clinical trials and scientific activities within different therapeutic areas is a plus
- Working knowledge of the healthcare system and research procedures, as well as the ICH guidelines, GCP and other ethical guidelines relevant to the industry.
- Fluent in English, French and Dutch (oral and written communication).

COMPETENCIES

- Must have a proven track record of success, especially in the area of establishing relationships with opinion leaders in therapeutic areas of interest to Mylan.
- Ability to translate highly complex medical scientific content to tactics and have medical operation expertise /skills or experience in managing complex Medical projects
- Excellent interpersonal communication and negotiation skills, and advanced presentation skills.
- Ability to synthesize recent scientific information and analyze them within strategic and regulatory settings.
- Capable to adapt in a fastmoving environment and able to deal with tight deadlines
- Ability to achieve results through cross-functional / cross-organizational teams. Must be considered as a peer to the customer base in order to educate and negotiate with KOLs/ decision makers.
